## SAFETY DATA SHEET

## DICCO CRYSTAL 90

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier

| Product name | $:$ DICCO CRYSTAL 90 |
| :--- | :--- |
| Product code | $: 59 \mathrm{~V}-\mathrm{s}$ |
| Product description | $:$ A two-component acid catalysed paint. |

### 1.2 Relevant identified uses of the substance or mixture and uses advised against <br> Recommended use: Painting work

```
1.3 Details of the supplier of the safety data sheet
    Manufacturer or Distributor
    Tikkurila Oyj
    P.O. Box }5
    FI-01301 VANTAA
    FINLAND
    Telephone +358 20 1912000
    e-mail address of person
    responsible for this SDS
    : Tikkurila Oyj,
                                Product Safety,
                                e-mail: productsafety@tikkurila.com
```

### 1.4 Emergency telephone number

Telephone number : 112

Supplier or Manufacturer
Telephone number
: Tikkurila Oyj +358 201912000 Mon-Fri 8-16

## SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

Product definition : Mixture
Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]
Flam. Liq. 3, H226
Eye Dam. 1, H318
STOT SE 3, H336
Aquatic Chronic 3, H412
The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

### 2.2 Label elements

Hazard pictograms
:

Signal word
Hazard statements
: Danger
: H226 - Flammable liquid and vapor.
H318-Causes serious eye damage.
H336 - May cause drowsiness or dizziness.
H412 - Harmful to aquatic life with long lasting effects.

Precautionary statements

## General

Prevention

Response

| Storage | $:$ Not applicable. |
| :--- | :--- |
| Disposal | $:$ Not applicable. |
| Hazardous ingredients | $:$ n-butyl acetate |
| iso-butanol |  | | Supplemental label | : Not applicable. |
| :--- | :--- |
| elements |  |

: Not applicable.

Not applicable
n-butyl acet
: Not applicable.

### 2.3 Other hazards

Other hazards which do : None known. not result in classification
: P261 - Avoid breathing mist/vapors/spray.
P280 - Wear eye or face protection.
P284 - In case of inadequate ventilation wear respiratory protection.
P210 - Keep away from sparks and open flames. - No smoking.
P273 - Avoid release to the environment.
: P305 + P351 + P338 + P310 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or physician.

## SECTION 3: Composition/information on ingredients

| 3.2 Mixtures : Mixture |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Product/ingredient name | Identifiers | \% | Classification <br> Regulation (EC) No. 1272/2008 [CLP] | Notes |
| n-butyl acetate | REACH \#: 01-2119485493-29 <br> EC: 204-658-1 <br> CAS: 123-86-4 <br> Index: 607-025-00-1 | $\geq 10-\leq 25$ | Flam. Liq. 3, H226 STOT SE 3, H336 EUH066 | - |
| urea, polymer with formaldehyde, isobutylated | CAS: 68002-18-6 | $\geq 5-\leq 15$ | Aquatic Chronic 4, H413 | - |

|  |  |  | See Section 16 for the full text of the H statements declared above. |  |

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.
Occupational exposure limits, if available, are listed in Section 8.

Notes, if applicable, refer to Notes given in Annex VI of 1272/2008/EC.

## SECTION 4: First aid measures

### 4.1 Description of first aid measures

General

Eye contact

Inhalation

Skin contact

Ingestion
: In all cases of doubt, or when symptoms persist, seek medical attention. Show this safety data sheet or label to the doctor if possible.
: Check for and remove any contact lenses. Immediately flush eyes with plenty of lukewarm water, keeping eyelids open. Continue to rinse for at least 20 minutes. Get medical attention immediately.
: Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Get medical attention.
: Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.
: If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Remove to fresh air and keep at rest in a position comfortable for breathing. Do NOT induce vomiting.

### 4.2 Most important symptoms and effects, both acute and delayed

Causes serious eye damage.
May cause drowsiness or dizziness.
See Section 11 for more detailed information on health effects and symptoms.

### 4.3 Indication of any immediate medical attention and special treatment needed

None.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

Suitable extinguishing media

Unsuitable extinguishing media
: Use an extinguishing agent suitable for the surrounding fire. Recommended: Alcohol resistant foam, $\mathrm{CO}_{2}$, powders or water spray/mist.
: Do not use a direct water jet that could spread the fire.

### 5.2 Special hazards arising from the substance or mixture

## Hazards from the

substance or mixture

Hazardous thermal decomposition products
: Flammable liquid and vapor. Fire will produce dense black smoke. Exposure to decomposition products may cause a health hazard. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create fire or explosion hazard.
: When exposed to high temperatures, may produce hazardous decomposition products, such as carbon monoxide and dioxide, smoke, oxides of nitrogen etc.

### 5.3 Advice for firefighters

Special protective actions
for fire-fighters

Special protective equipment for fire-fighters
: Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. This material is hazardous to aquatic organisms. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions,

 protective equipment and emergency procedures
### 6.2 Environmental precautions

6.3 Methods and materials for containment and cleaning up

### 6.4 Reference to other sections

: Shut off all ignition sources. No flares, smoking or flames in hazard area. Provide adequate ventilation. Avoid breathing vapor or mist. Avoid direct skin contact with product. See Section 8 for information on appropriate personal protective equipment.
: Hazardous to aquatic environment. Do not allow to enter drains, water courses or soil.
: Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Preferably clean with a detergent. Avoid using solvents.
: See Section 1 for emergency contact information. See Section 13 for additional waste treatment information.

## SECTION 7: Handling and storage

### 7.1 Precautions for safe

 handling: Vapors are heavier than air and may spread along floors. Vapors may form explosive mixtures with air. Prevent the creation of flammable or explosive concentrations of vapors in air and avoid vapor concentrations higher than the occupational exposure limits. Isolate from sources of heat, sparks and open flame. In addition, the product should only be used in areas from which all naked lights and other sources of ignition have been excluded. Electrical equipment should be protected to the appropriate standard. Mixture may charge electrostatically: always use earthing leads when transferring from one container to another. No sparking tools should be used.
Skin contact with the product and exposure to spray mist and vapor should be avoided. Avoid inhalation of dust from sanding. Wear appropriate respirator when ventilation is inadequate. See Section 8 for information on appropriate personal protective equipment. Eating, drinking and smoking should be prohibited in areas where this material is handled and stored. Wash hands before breaks and immediately after handling the product. Avoid release to the environment.
Risk of self-ignition! Materials such as cleaning rags and paper wipes, sanding dust and overspray containing the product, may spontaneously self-ignite some hours later. To avoid the risks of fires, all contaminated materials should be placed in a metal container filled with water and sealed or dried preferably outdoors or incinerated immediately. Contaminated materials should be removed from the workplace at the end of each working day and be stored outside.
7.2 Conditions for safe storage, including any incompatibilities
: Store away from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). No smoking. Store and use away from heat, sparks, open flame or any other ignition source. Keep container tightly closed. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Recommended storage temperature is $+5^{\circ} \mathrm{C} \ldots+25^{\circ} \mathrm{C}$. Store in accordance with local regulations.
7.3 Specific end use(s) : None.

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

Occupational exposure limits

| Product/ingredient name | Exposure limit values |
| :--- | :--- |
| 2-methoxy-1-methylethyl acetate | EU OEL (Europe, 12/2009). Absorbed through skin. Notes: list |
|  | of indicative occupational exposure limit values |
|  | TWA: 50 ppm 8 hours. |
|  | TWA: $275 \mathrm{mg} / \mathrm{m}^{3} 8$ hours. |
|  | STEL: 100 ppm 15 minutes. |
|  | STEL: $550 \mathrm{mg} / \mathrm{m}^{3} 15$ minutes. |

Recommended monitoring procedures
: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

## DNELs/DMELs

No DNELs/DMELs available.

## PNECs

No PNECs available.

### 8.2 Exposure controls

## Appropriate engineering controls

Provide adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. Use explosion-proof ventilation equipment. If these are not sufficient to maintain concentrations of particulates and solvent vapours below the OEL, suitable respiratory protection must be worn (see Personal protection for both components). Provide a readily-accessible eyewash facility. Comply with the health and safety at work laws.
Individual protection measures

Eye/face protectio
Hand protection

Skin protection

Respiratory protection

Environmental exposure controls
: Wear eye/face protection (EN166).
: Wear protective gloves. Gloves should be replaced regularly and if there is any sign of damage to the glove material. The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.
Recommended glove material (EN374):
$<1$ hour (breakthrough time): butyl rubber
$>8$ hours (breakthrough time): laminated foil
Not recommended: PVC or natural rubber (latex) gloves
: Wear suitable protective clothing. This product is classified as flammable. If necessary, personnel should wear antistatic clothing made of natural fibers or of high-temperature-resistant synthetic fibers.

## SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

Physical state
Color

Explosive properties
Oxidizing properties
: Closed cup: $32^{\circ} \mathrm{C}$
: 1 (butyl acetate = 1) (n-butyl acetate)
: Not applicable. Product is a liquid.
: Lower: 1,4\% (n-butyl acetate)
Upper: 7,6\% (n-butyl acetate)
: $1,5 \mathrm{kPa}$ [room temperature] (n-butyl acetate)
: 4 (n-butyl acetate)
: $1,2 \mathrm{~g} / \mathrm{cm}^{3}$
: insoluble in water.
: Not available.
: $415^{\circ} \mathrm{C}$ (n-butyl acetate)
: Not relevant for the hazard assessment of the product.
: >60 s [ISO 6mm cup]
: No explosive ingredients present.
: No oxidizing ingredients present.

### 9.2 Other information

No additional information.

## SECTION 10: Stability and reactivity

10.1 Reactivity
: See Section 10.5
: Stable under recommended storage and handling conditions (see Section 7).
: May present an explosion hazard when material is suspended in air in confined areas or equipment and subjected to spark, heat or flame.

Avoid extreme heat and freezing. Avoid all possible sources of ignition (spark or flame).
10.6 Hazardous decomposition products
: When exposed to high temperatures, hazardous decomposition products may be produced, such as carbon monoxide and dioxide, smoke, oxides of nitrogen etc.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

There is no testdata available on the product itself.
The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.
Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin. If splashed in the eyes, the liquid may cause irritation and reversible damage. Ingestion may cause nausea, diarrhea and vomiting. Formaldehyde is released during curing. Formaldehyde may cause irreversible effects, is irritating to the mucous membranes and may cause skin sensitization.
Acute toxicity
Not classified
Irritation/Corrosion

Causes serious eye damage.

## Sensitization

Not classified
Mutagenicity
Not classified
Carcinogenicity
Not classified.
Reproductive toxicity
Not classified
Teratogenicity
Not classified.
Specific target organ toxicity (single exposure)
May cause drowsiness or dizziness.
Specific target organ toxicity (repeated exposure)
Not classified.
Aspiration hazard
Not classified.

## SECTION 12: Ecological information

Ecological testing has not been conducted on this product.
Do not allow to enter drains, water courses or soil.

The product is classified as environmetally hazardous according to Regulation (EC) 1272/2008.
Harmful to aquatic life with long lasting effects.

### 12.1 Toxicity

| Product/ingredient name | Result | Species | Exposure |
| :--- | :--- | :--- | :--- |
| hydrocarbons, C9, aromatics | LC50 $1 \mathrm{mg} / \mathrm{l}$ | Fish | 96 hours |

### 12.2 Persistence and

 degradability| Product/ingredient name | Test | Result | Dose | Inoculum |
| :--- | :--- | :--- | :--- | :--- |
| hydrocarbons, C9, aromatics | - | $78 \%-28$ days | - | - |
| Product/ingredient name | Aquatic half-life | Photolysis | Biodegradability |  |
| hydrocarbons, C9, aromatics | - | - | Readily |  |

### 12.3 Bioaccumulative : No specific data. potential

### 12.4 Mobility in soil

Soil/water partition
: Not available.
coefficient (Koc)
Mobility : Not available.

### 12.5 Results of PBT and vPvB assessment

PBT
: Not applicable.
vPvB : Not applicable.
12.6 Other adverse effects : Not available.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

## Product

Methods of disposal
: Gather residues into waste containers. Liquid residue and cleaning liquids are hazardous waste and must not be emptied into drains or sewage system, but handled in accordance with national regulations. Product residues should be left at special companies which have permission for gathering this kind of wastes.
European waste catalogue (EWC)

| Waste code | Waste designation |
| :---: | :--- |
| $080111^{*}$ | waste paint and varnish containing organic solvents or other hazardous substances |

If this product is mixed with other wastes, the original waste product code may no longer apply and the appropriate code should be assigned. For further information, contact your local waste authority.
Packaging
Methods of disposal : Empty packaging should be recycled or disposed of in accordance with national regulations.
Special precautions
: None.

## SECTION 14: Transport information

|  | ADR/RID | IMDG | IATA |
| :---: | :---: | :---: | :---: |
| 14.1 UN number | UN1263 | UN1263 | UN1263 |
| 14.2 UN proper shipping name | PAINT | PAINT | PAINT |
| 14.3 Transport hazard class(es) | 3 | 3 | 3 |
| 14.4 Packing group | III | III | III |
| 14.5 <br> Environmental hazards | No. | No. | No. |
| Additional information | Special provisions 640 (E) <br> Viscous substance exemption <br> This class 3 material is not subject to regulation in packagings up to 450 L. <br> Exempted according to 2.2.3.1.5 (Viscous substance exemption) <br> Tunnel code (D/E) | Emergency <br> schedules (EmS) <br> F-E,S-E <br> Viscous substance exemption <br> This class 3 material is not subject to regulation in packagings up to 30 L . Exempted according to 2.3.2.5 (Viscous substance exemption) | - |

14.6 Special precautions for user
: Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

```
14.7 Transport in bulk : Not available.
according to Annex II of
MARPOL and the IBC Code
```

## SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture EU Regulation (EC) No. 1907/2006 (REACH)
Other EU regulations
Europe inventory
VOC Directive
15.2 Chemical Safety

Assessment
: Not determined.
: This product is in scope of Directive 2004/42/CE.
: This product contains substances for which Chemical Safety Assessments are still required.

## SECTION 16: Other information

Indicates information that has changed from previously issued version.

Notice to reader

This Safety Data Sheet is prepared in accordance with Annex II to Regulation (EC) No 1907/2006 (REACH). The information contained in this Safety Data Sheet is based on the present state of knowledge and current EU and national legislation. It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications.
