SAFETY DATA SHEET

FONTEFLOOR PU MATT HARDENER

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier

: FONTEFLOOR PU MATT HARDENER Product name

: Hardener.

Product description

1.2 Relevant identified uses of the substance or mixture and uses advised against

Recommended use: Painting work

1.3 Details of the supplier of the safety data sheet

Manufacturer or Distributor Tikkurila Ovi P.O. Box 53 FI-01301 VANTAA **FINLAND** Telephone +358 20 191 2000 e-mail address of person : Tikkurila Oyj, responsible for this SDS Product Safety, e-mail: productsafety@tikkurila.com

1.4 Emergency telephone number

| Telephone number | : | 112 (24h) |
|--------------------------|---|---|
| Supplier or Manufacturer | | |
| Telephone number | : | Tikkurila Oyj +358 20 191 2000 (GMT +2) Mon-Fri 8-16 |

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition : Mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] Acute Tox. 4, H332 Skin Sens. 1, H317 STOT SE 3, H335 Aquatic Chronic 3, H412

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

2.2 Label elements

Hazard pictograms

Signal word Hazard statements

- : Warning

- : H332 Harmful if inhaled.
- H317 May cause an allergic skin reaction.
 - H335 May cause respiratory irritation.
 - H412 Harmful to aquatic life with long lasting effects.

| Date of issue/Date of revision | 30.07.2019 Date of previous issue | 18.01.2018. | FONTEFLOOR PU MATT HARDENER |
|--------------------------------|--|--------------------|-----------------------------|
| Precautionary statements | | | |
| General | : Not applicable. | | |
| Prevention | : P261 - Avoid breathing vapor. P273 - Avoid release to the enviro P280 - Wear protective gloves/clo P284 - In case of inadequate ven | othing and eye/fa | • |
| Response | : P302 + P352 - IF ON SKIN: Was P312 - Call a POISON CENTER | | • |
| Storage | : Not applicable. | | |
| Disposal | : Not applicable. | | |
| Hazardous ingredients | : aliphatic polyisocyanate hexamethylene diisocyanate | | |
| Supplemental label elements | : 🖉 ontains isocyanates. May produ | ce an allergic rea | action. |

2.3 Other hazards

Other hazards which do : None known. not result in classification

SECTION 3: Composition/information on ingredients

| 3.2 Mixtures | : Mixture | | | |
|----------------------------|---|------|---|-------|
| | | | Classification | |
| Product/ingredient name | Identifiers | % | Regulation (EC) No. 1272/2008 [CLP] | Notes |
| aliphatic polyisocyanate | CAS: 160994-68-3 | ≥90 | Acute Tox. 4, H332 Skin Sens. 1, H317 STOT SE 3, H335 Aquatic Chronic 3, H412 | - |
| hexamethylene diisocyanate | REACH #: 01-2119457571-37 EC: 212-485-8 CAS: 822-06-0 | ≤0.3 | Acute Tox. 4, H302 Acute Tox. 1, H330 Skin Irrit. 2, H315 Eye Irrit. 2, H319 Resp. Sens. 1, H334 Skin Sens. 1, H317 STOT SE 3, H335 | 2 |
| | | | See Section 16 for the full text of the H statements declared above. | |

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Notes, if applicable, refer to Notes given in Annex VI of 1272/2008/EC.

SECTION 4: First aid measures

| 4.1 Description of first | t aid measures |
|--------------------------|--|
| General | In all cases of doubt, or when symptoms persist, seek medical attention. Show this safety data sheet or label to the doctor if possible. |
| Eye contact | Check for and remove any contact lenses. Immediately flush eyes with plenty of lukewarm water, keeping eyelids open. Continue to rinse for at least 15 minutes. Get medical attention if symptoms occur. |
| Inhalation | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Get medical attention. |

| Date of issue/Date of revision | 30.07.2019 Date of previous issue | 18.01.2018. | FONTEFLOOR PU MATT HARDENER |
|--------------------------------|---|------------------|---------------------------------|
| Skin contact | : Remove contaminated clothing a water or use recognized skin clear medical attention if symptoms oc | anser. Do NOT u | |
| Ingestion | : If accidentally swallowed rinse the conscious) and obtain immediate at rest in a position comfortable for | medical attentio | n. Remove to fresh air and keep |

4.2 Most important symptoms and effects, both acute and delayed

Harmful if inhaled.

May cause respiratory irritation.

May cause an allergic skin reaction.

See Section 11 for more detailed information on health effects and symptoms.

4.3 Indication of any immediate medical attention and special treatment needed

None.

SECTION 5: Firefighting measures

5.1 Extinguishing media

| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. Recommended: Alcohol resistant foam, CO ₂ , powders or water spray/mist. |
|--------------------------------|---|
| Unsuitable extinguishing media | : Do not use a direct water jet that could spread the fire. |

5.2 Special hazards arising from the substance or mixture

| Hazards from the substance or mixture | : This product is not classified as flammable. Fire will produce dense black smoke. Exposure to decomposition products may cause a health hazard. |
|---------------------------------------|--|
| Hazardous combustion products | In a fire or when exposed to high temperatures, hazardous decomposition products may be produced, such as carbon monoxide, smoke, oxides of nitrogen, hydrogen cyanide and isocyanate compounds. |

5.3 Advice for firefighters

| Special protective actions for fire-fighters | : | Use water spray to keep fire-exposed containers cool. This material is hazardous to aquatic organisms. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
|--|---|--|
| Special protective equipment for fire-fighters | | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

SECTION 6: Accidental release measures

| 6.1 Personal precautions, protective equipment and emergency procedures | : Provide adequate ventilation. Avoid breathing vapor or mist. Avoid direct skin contact with product. See Section 8 for information on appropriate personal protective equipment. |
|---|---|
| 6.2 Environmental precautions | : Hazardous to aquatic environment. Do not allow to enter drains, water courses or soil. |
| 6.3 Methods and materials for containment and cleaning up | : Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in a suitable container. The contaminated area should be cleaned immediately with a suitable decontaminant. One possible (flammable) decontaminant comprises (by volume): water (45 parts), ethanol or isopropyl alcohol (50 parts) and concentrated (d: 0,880) ammonia solution (5 parts). A non-flammable alternative is sodium carbonate (5 parts) and water (95 parts). Add the same decontaminant to the remnants and let stand for several days until no further reaction in an unsealed container. Once this stage is reached, close container and dispose of according to local regulations (see section 13). |

| Date of issue/Date of revision | 30.07.2019 Date of previous issue | 18.01.2018. | FONTEFLOOR PU MATT HARDENER |
|---------------------------------|--|-------------|-----------------------------|
| 6.4 Reference to other sections | : See Section 1 for emergency cont See Section 13 for additional wast | | rmation. |

SECTION 7: Handling and storage

| 7.1 Precautions for safe handling | : Persons with a history of asthma, allergies, chronic or recurrent respiratory disease should not be exposed to any process in which this product is used. Avoid contact with skin and eyes. Avoid breathing vapor. Avoid inhalation of dust from sanding. Wear appropriate respirator when ventilation is inadequate. See Section 8 for information on appropriate personal protective equipment. Eating, drinking and smoking should be prohibited in areas where this material is handled and stored. Wash hands before breaks and immediately after handling the product. Avoid release to the environment. |
|--|--|
| | Precautions should be taken to minimize exposure to atmospheric humidity or water. CO ₂ will be formed, which, in closed containers, could result in pressurization. Care should be taken when re-opening partly-used containers. |
| 7.2 Conditions for safe storage, including any incompatibilities | : Store away from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10). Keep container tightly closed. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Recommended storage temperature is +5°C+25°C. Do not allow to freeze. Store in accordance with local regulations. |
| 7.3 Specific end use(s) | : None. |

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits No exposure limit value known.

procedures

Recommended monitoring : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

DNELs/DMELs

No DNELs/DMELs available.

PNECs

No PNECs available.

8.2 Exposure controls

Appropriate engineering controls

Persons with a history of asthma, allergies, chronic or recurrent respiratory disease should not be exposed to any process in which this product is used. Provide adequate ventilation. Air-fed protective respiratory equipment must be worn by the spray operator, even when good ventilation is provided. In other operations, if local exhaust ventilation and good general extraction are not sufficient to maintain concentrations of particulates and solvent vapors below the OEL, suitable respiratory protection must be worn. (See Personal Protection.) Comply with the health and safety at work laws.

Individual protection measures

| Eye/face protection | : Use safety eyewear designed to protect against splash of liquids (EN166). |
|---------------------|--|
| Hand protection | Always wear approved protective gloves against chemicals. Gloves should be replaced regularly and if there is any sign of damage to the glove material. The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed. Recommended glove material (EN374): 1 hour (breakthrough time): nitrile rubber, fluor rubber 8 hours (breakthrough time): laminated foil Not recommended: PVC or natural rubber (latex) gloves |
| Skin protection | : Wear suitable protective clothing. |

| Date of issue/Date of revision | | 30.07.2019 Date of previous issue | 18.01.2018. | FONTEFLOOR PU MATT HARDENER |
|---------------------------------|---|---|--|--|
| Respiratory protection | : | If workers are exposed to concer appropriate, certified respirators. (EN12941:1998). By other opera fed respirators could be replaced filter mask (EN140:1998). Unde isocyanate to remain unreacted id dry flatting is unavoidable, air-fed should be used during sanding. regularly. | During spray-a ations than spray by a combination r cool, dry condit in the paint film o d respiratory prot | pplication use air-fed respirator ring, in well ventilated areas, air- on charcoal filter and particulate rions, it is possible for the over 30 hours after application. If ective equipment (EN12941:1998) |
| Environmental exposure controls | : | For information regarding environ section 13 for waste handling, se for relevant identified uses of the | ection 7 for handl | ing and storage and section 1.2 |

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

| | | the second se |
|---|---|---|
| Appearance | | |
| Physical state | : | Liquid. |
| Color | : | Clear. |
| Odor | : | Strong. |
| Odor threshold | : | Not relevant for the hazard assessment of the product. |
| рН | : | Not relevant for the hazard assessment of the product. |
| Melting point/freezing point | : | Not available. |
| Initial boiling point and | : | Not available. |
| boiling range | | |
| Flash point | : | >100 °C |
| Evaporation rate | : | Not available. |
| Flammability (solid, gas) | : | Not applicable. Product is a liquid. |
| Upper/lower flammability or explosive limits | : | Not available. |
| Vapor pressure | : | Not available. |
| Vapor density | : | Not available. |
| Density | : | 1.15 g/cm³ |
| Solubility(ies) | : | Miscible in water. |
| Partition coefficient: n-octanol/ water | : | Not available. |
| Auto-ignition temperature | : | Not available. |
| Decomposition temperature | : | Not relevant for the hazard assessment of the product. |
| Viscosity | : | Not relevant for the hazard assessment of the product. |
| Explosive properties | : | No explosive ingredients present. |
| Oxidizing properties | : | No oxidizing ingredients present. |
| | | |

9.2 Other information

No additional information.

| SECTION 10: Stability and reactivity | | | |
|--|--|--|--|
| 10.1 Reactivity | : See Section 10.5. | | |
| 10.2 Chemical stability | : Stable under recommended storage and handling conditions (see Section 7). | | |
| 10.3 Possibility of hazardous reactions | : Reacts slowly with water, resulting in the production of carbon dioxide. In closed containers, pressure buildup could result in bursting of the container. | | |
| 10.4 Conditions to avoid | : Avoid extreme heat and freezing. | | |

| Date of issue/Date of revision | 30.07.2019 Date of previous issue | 18.01.2018. | FONTEFLOOR PU MATT HARDENER |
|--|---|--|--------------------------------|
| 10.5 Incompatible materials | : Keep away from the following ma oxidizing agents strong acids strong alkalis amines alcohols | terials to preven | t strong exothermic reactions: |
| 10.6 Hazardous decomposition products | : When exposed to high temperature produced, such as carbon monox Fire will produce dense black smark Welding, grinding and other hot we free isocyanates to be formed an | kide and dioxide, oke. vork on the alrea | smoke, oxides of nitrogen etc. |

SECTION 11: Toxicological information

11.1 Information on toxicological effects

There is no testdata available on the product itself.

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

Long term exposure by inhalation may cause respiratory tract irritation. Repeated exposure may lead to permanent respiratory disability. Repeated or prolonged skin contact may lead to allergic contact dermatitis.

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|----------------------------|------------------------------------|---------|-----------|----------|
| Mexamethylene diisocyanate | LC50 Inhalation Dusts and mists | Rat | 124 mg/m³ | 4 hours |

Harmful if inhaled.

Irritation/Corrosion

Not classified.

Sensitization

May cause an allergic skin reaction. Contains small amounts of sensitizing substances: hexamethylene diisocyanate

Mutagenicity

Not classified.

Carcinogenicity

Not classified.

Reproductive toxicity

Not classified.

Teratogenicity

Not classified.

Specific target organ toxicity (single exposure)

May cause respiratory irritation.

Specific target organ toxicity (repeated exposure)

Not classified.

Aspiration hazard

Not classified.

SECTION 12: Ecological information

Ecological testing has not been conducted on this product. Do not allow to enter drains, water courses or soil.

The product is classified as environmetally hazardous according to Regulation (EC) 1272/2008. Harmful to aquatic life with long lasting effects.

12.1 Toxicity

| Product/ingredient name | Result | Species | Exposure |
|--------------------------|----------------|---------|----------|
| afiphatic polyisocyanate | LC50 28.3 mg/l | Fish | 96 hours |

30.07.2019 Date of previous issue 18.01.2018.

FONTEFLOOR PU MATT HARDENER

12.2 Persistence and : No specific data. **degradability**

12.3 Bioaccumulative potential

| Product/ingredient name | | Bioconcentration factor [BCF] | Potential |
|----------------------------|------|----------------------------------|-----------|
| Rexamethylene diisocyanate | 0.02 | 57.63 | low |

12.4 Mobility in soil

| Soil/water partition coefficient (Koc) | : | Not available. |
|--|---|----------------|
| Mobility | : | Not available. |

12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Other adverse effects : Not available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product

Methods of disposal

: Residues in empty containers should be neutralized with a decontaminant (see section 6). Liquid residue and cleaning liquids are hazardous waste and must not be emptied into drains or sewage system, but handled in accordance with national regulations. Product residues should be left at special companies which have permission for gathering this kind of wastes.

European waste catalogue (EWC)

| Waste code | Waste designation | |
|------------|---|--|
| 08 01 11* | waste paint and varnish containing organic solvents or other hazardous substances | |

If this product is mixed with other wastes, the original waste product code may no longer apply and the appropriate code should be assigned. For further information, contact your local waste authority.

Packaging

Methods of disposal : Empty packaging should be recycled or disposed of in accordance with national regulations.

Special precautions : No additional information.

SECTION 14: Transport information

This product is not regulated for carriage according to ADR/RID, IMDG, IATA.

This Safety Data Sheet is prepared in accordance with Annex II (EU) No 830/2015 to Regulation (EC) No 1907/2006 (REACH). The information contained in this Safety Data Sheet is based on the present state of knowledge and current EU and national legislation. It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications.
