Fontefire WF Clear

A WATER-BORNE FIRE-RETARDANT
LACQUER FOR INTERIOR WOOD
SURFACES

High-level fire protection

Fontefire WF Clear is a fire-retardant lacquer with low VOCs for a safer working environment

Faster, safer, and more efficient

Fontefire WF Clear is a water-borne one-component lacquer that offers the highest possible fire-retardant properties for interior softwood surfaces, making it suitable even for buildings with stringent fire safety requirements such as schools and hospitals. When subjected to heat, Fontefire WF Clear expands to form an insulating foam layer, slowing down the spread of fire and reducing smoke formation.

For application instructions please refer to the product data sheet

Due to its fast drying time, low odor, and low VOC (volatile organic compound) content, Fontefire WF Clear ensures quicker application and a safer working environment. The lacquer's transparent white color enhances the natural beauty of wood while its high solids content reduces swelling of the wood fibers to create a smooth and even finish.

BENEFITS

- ☒ HIGHEST POSSIBLE FIRE PROTECTION FOR WOOD: CLASS B-s1, d0 (EN 13501-1:2007+A1:2009)
- ☒ FAST DRYING TIME INCREASES EFFICIENCY AND REDUCES COSTS ON APPLICATION LINES
- ☒ DRIES QUICKLY IN BOTH OVENS AND AT ROOM TEMPERATURE
- ☒ GIVES A HIGH-QUALITY END RESULT WHICH ENHANCES THE NATURAL BEAUTY OF WOOD
