PROFESSIONAL

Fontefloor EP 3000

A TWO-COMPONENT, WATER-BORNE,
SELF-LEVELLING EPOXY SCREED

Builds up to a seamless, self-leveling matt finish

LOW-EMISSION SCREED
SUITABLE FOR GREEN
BUILDING PROJECTS

Fontefloor EP 3000 builds up to a beautiful seamless, self-levelling matt finish on the floor and it is your perfect choice for coating floors exposed to light and medium mechanical stress in commercial, public and residential premises, basements and premises where floors are in direct contact with the ground.

Fontefloor EP 3000 is a water-borne M1-classified epoxy screed that meets the strictest emissions requirements, ensuring good indoor air quality and making it suitable for green building projects. The screed offers high water vapour permeability, making it the perfect choice for concrete floors exposed to capillary moisture.

Fontefloor EP 3000 is an M1-classified screed, CE marked with a Declaration of Performance according to EN 1504-2 for the surface protection of concrete.

For more detailed product properties and application instructions please refer to the product data sheet.

VOLUME	10 L, 20 L
COLOUR	Tikkurila Symphony, RAL and NCS colour cards
GLOSS VALUE	Matt

BENEFITS

- LOW-EMISSION SCREED SUITABLE FOR GREEN BUILDING PROJECTS (BREEAM, LEED)
- SMOOTH AND SEAMLESS MATT FINISH
- RESISTANT TO MEDIUM MECHANICAL STRESS
- HIGH WATER VAPOUR PERMEABILITY
