APPLICATION INSTRUCTIONS

Application conditions
The surface to be painted must be dry, the ambient temperature at least +10 °C and the relative humidity of air below 80%.

Surface preparation
Unpainted surfaces:

Clean the new surfaces by removing any dirt and dust. If necessary, level the surfaces with a suitable Presto filler. Remove the sanding dust. Prime with Varma primer.

Previously painted surfaces:

Wash previously painted surfaces with Seinäpesu detergent. Fill any cracks and holes with a suitable Presto filler and sand the dried surface. Sand the painted surfaces non-glossy. Remove the sanding dust. Prime with Varma primer, if necessary.

Painting
Stir Remontti-Ässä well before use and thin with water, if necessary. Apply 1–2 coats by roller, brush or spray.

Cleaning of tools
Clean tools with water. Tikkurila Pensselipesu Tool Cleaner is recommended to remove slightly hardened paint.

Maintenance instructions
If needed, after approx. 1 month from treating the surface, at the earliest.

Clean the surfaces with a neutral (pH 6–8) cleaning solution and e.g. a sponge or cleaning cloth. Clean very dirty surfaces with a mild alkaline (pH 8–10) cleaning solution and e.g. a cleaning cloth or sponge. After washing, rinse the surface thoroughly. Follow the dilution instructions given by the detergent manufacturer when mixing the cleaning solution.

After surface treatment, surfaces must be handled with care for a few weeks, as the product will reach its final hardness and durability after about a month under normal conditions.

If the surfaces need to be cleaned soon after finishing, clean them lightly with a damp cleaning cloth.

Maintenance treatment
Surfaces painted with Remontti-Ässä can be maintenance painted with same or similar waterborne paint.

Environmental protection and waste disposal
Destroy liquid waste according to the local regulations for hazardous waste. Recycle empty, dry cans or dispose them of in accordance with local regulations.

Health and Safety
The product is not classified as dangerous. Contains 1,2-benzisothiazol-3(2H)-one (BIT) and reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1) (C(M)IT/MIT (3:1)). May produce an allergic reaction. This product contains a biocidal product for the preservation of the product during storage. Contains C(M)IT/MIT (3:1). Wear protective gloves.
